smartsigns® Compact 750 Series

8.5" Patient Monitor

The smartsigns® Compact 750 series is a pre-configured patient monitor which displays patient status on a high resolution 8.5" TFT display.

High visibility colour coded waveforms provide clinicians with an immediate indication of patient status. The clarity of the high resolution display far exceeds that of similar monitors found in this sector.

System controls are affected through the systems Smart intuitive interface with integrated touch screen control.

Mains and battery operation allow the smartsigns® Compact 750 series to be used at the bedside or for transfer / transport applications.

The smartsigns® Compact 750 series supports all patient groups. This combination of affordability and performance make the smartsigns® Compact 750 series the ideal choice for clinicians. Monitoring capability – ECG (3 or 5 lead), Resp, SpO₂, NiBP, Temp (2)

- 4 Standard waveforms
- Mains and battery operation
- Numerical and tabular trends
- Full function alarms with auto-set facility
